	<i>The following cows were purchased from multiple sources over the past 60 days. Our plans were to run them on winter pasture, calve, breed back and sell. We are looking at going a different direction and have decided to offer them in our sale as commodity cows. We know they should calve before the end of the year and they are all 5yo to solid mouth cows. We will have a vet re-check them and age before delivery. There are some calves already at side</i>	
	<i>Cows will not be split and sell as advertised.</i>	
	<i>We recommend coming and viewing these cows before sale day if you are interested. They will not be on site to view sale day.</i>
